COTTON AND COTTON PLANTING. Kinds of Soil Employed-Expenses and Profits - Will the Freedmen high price of cotton for the next two years. Change Inevitable - Will Cotton Planting Pay? the whites, in their intercourse with the blacks, is the only policy that will insure OBERLIN, December 16, 1865.

Dear LEADER-I have read with interst your late articles upon Southern Emigration, and with your permission will lay before your readers, the following, as the result of thirty days of travel and observation among the people and cotton lands of Mississippi and Alabama: KINDS OF SOIL EMPLOYED. Prominent among these may be named

in the late slaveholding States, will not the overflowed lands near the rivers, and voluntarily grant. It is agreed that no more especially the Mississippi River part of the disaster which has fallen upon lands-the black prairis land; the cane-Jamaica is chargeable to a denial of the brake land, which is also a black clay soil; franchise to the Negroes, and the assertion the post sek, or red clay, and the gray is made that the franchise has not been sand soil. withheld. This is a question of fact, upon These soils differ materially from each other in productiveness, and each has its

which the Journal is at fault. The fact peculiar good qualities as well as its liaone person in one hundred and bility to failure. The largest crop is proseventy-six in Jamaica indicates too plainduced upon the Mississippi River lands, ly that there is a fearful denial and may be stated to be an average of one baie of five hundred pounds to the acre, while that of the cane brake and prairie of legal rights. When it is fresh-ascertained that the executive, legislative and judicial branches of the government produces a half bale or over to the acre, are exclusively in the hands of the white and the gray sand and post oak lands replanters and the clergy of the established quire three acres generally to produce a church, it is evident that it is the black race which is oppressed. Among the

causes of irritatiou, the Journal places the to various vicissitudes, so that the crop is possession of the courts by the whites, the by no means a sure one. The cotton crop importation of Cooley laborers, and the in the bottom lands of the Mississippi is tixation of articles worn by the Negroes. exposed to ruin from breaks from the rely upon Government rations for subsis- When it is recollected that the Negroes are levee in high water; those of the prairie ten times as numerous as the whites, is it and cane break lands are injured by excesreasonable to suppose that they would be sive drouth and excessive rains,—the surest commence clearing away the rubbish in subjected to these hardships if they pos- and smallest crop being produced upon sessed equality before the law with the the post-oak and grey and soils; but these, paratory to the rebuilding of the property whites? The admission that such wrongs in common with the rest, are exposed to exist is sufficient refutation of the asser- various insects and worms, which sometion that the Negroes possess the franchise times work great ruin. It is important Thus armed, they could and would obtain that the facts be taken into account by nations of eagles, half eagles, dollars, half their rights by peaceful means. But the those who are desirous of coming to correct the South to the condition of Jamaica as a planting.

solemn warning against oppressing the In making a reliable exhibit of the probable profits of planting cotton, it is proper to take the grey sand land as a basis, for, while the yield is not so great upon this soil, the crop is less liable to failure from tant General of Mississippi to the Captains any of the causes mentioned, and it is the opinion of most planters that for a series of years this grade of land is equal to any other for profit. Taking, then, a plantation of this sort containing aix hundred acres of tillable cotton land and two hun-The order is said to emanate from Governor Humphrey, and directs the employdred acres for corn, and it will require a force of fifty freedmen and twenty-five to put down any efforts of resistance on mules towork it, and they will produce not the part of the Negroes." This is a fair only the cotton crop, but also the necessary amount of corn for the hands and stock of the plantation for another year. At a ruffians may load themselves down with fire-arms and other weapons, and would be two hundred bales, which at its shoot and stab men guilty of no crime present value, forty cents per pound, save the possession of a black skin, whilst would bring, say \$40,000, costing as fol-

tion of corn and pork from the two he ured scres cultivated by the same force. Many plantations have been leased, the lessor furnishing the mules, plows and harness and feeding the hands, and conducting the plantation—each party receiving one-half of the cotton in the bale.

WILL THE FREEDMEN WORK? To this question the almost universa sober judgment, and his opinion on the from careful scrutiny I am convinced that sober judgment, and his opinion on the subject, formed after thirty days of observation and travel, will be of great value.

WASHINGTON TOPICS AND GOSSIP.

[Special to the Cincinnati Gazette.] Gov. Corwin was still alive at two clock this afternoon, but he has been enpast, nor is the experience of the planter. since the surrender with his mode of treattirely unconscious since about three o'clock this morning, and his decease is momenting the freedmen, calculated to change his view; for, acting under the influence of

only means by which the negro can be made to work, for slavery has justified it-self upon this assumption through all the arily expected. Major General Schenck, General Durbin Ward, Postmaster General Dennison and friends watched at his side during the night. Surgeon General Barnes and Colonel Bliss, D. S. A., have large majority of instances, to fulfill his promises to resuments his former also seems to resume the former also seems to been in attendance upon him, besides a resident physician, but the case was en-

Romero, the Mexican Minister, was among the first to hasten to his bedside this morning, and his last moments are being attended by the Ohio Senators, Representatives, the Chief Justice of the Supreme Court and Cabinet officers, besides a number of distinguished men from all sections of the country. ber of distinguished men from all sections his former master. It is but just to state, of the country. however, in this connection, that the freed-men quite generally misapprehend the true character of the change which the war has so suddenly brought upon them. The lack of intelligence which slavery has necessarily entailed upon them, makes them an easy prey to such stories as bad, men have set affoat among them to the effect that at Christmas the lands and mules of their last musters was to be diseems to be an object of great desire among the negroes, while the planter, on the other hand, seems horrifled at the thought of their becoming possessed of lands, either by purchase or by lease. From frequent conversations with the freedmen, respecting their plans and pur poses, and from the fact that wherever they are employed and paid now they per-form faithful service, I conclude that as soon as they comprehend exactly what freedom has secured to them, and are fully

protected, the great majority will be found to be faithful laborers for pay. of harmony between Congress and the
Executive. The determination of Congress to delay any action concerning the
Southern States till after full investigation

Tribune, writing from San Francisco ut

hopes of the success of this plan, and seem to falter in the course which, to them, seemed inevitable, just in proportion to the revival of their newly-created hopes. It is not my purpose to anticipate the result of this new phase of the process of reconstruction, but merely to note the fact for the information of those who are interested in whatever affects the business of cotton-planting, and the labor of the freedmen, which seems to be indispensable to it is all the cotton-planting regions of the South.

The schemes of the politicians above referred to, it is believed, will not work. The news from Washington is unfavorable to their success, and without Congressional aid the question of labor will be left to be adjusted in part at least upon such terms as the freedman shall recognize a just and equitable.

When the holidays are past, arrangements for the year must be definitely settled, and the labor must begin upon the black lands in January, and upon the wand lands and alluvial soil as early as black lands in January, and upon the sand lands and alluvial soil as early as Fan Francisco, by which the cost of freigh will be reduced from \$160 to \$50 per tun?

I answer, yes. The data furnished above hows this, and the calculation is entirely be better sequired in a College building, focated it a large city, that in the same College building if re generally produce a much larger crop, and will of course pay better. But it should be remembered that cotton is not a sure crop—the better the soil the more liable the failure. But when a crop is semantic that when a crop is semantic to requare money the better for those and indicements to requander money the better for those surfacements to requander money the better for those surfacements to requander money the better for those surfacements to requander money the better for those surfacements.
